DETAILED ACTION

Papers Received

Receipt is acknowledged of the applicant's request for continued examination, petition for extension of time, amendment, response, terminal disclaimer, and information disclosure statement, all received on 03 March 2004.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 03 March 2004 has been received in the application. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner has considered the information disclosure statement.

Claim Rejections - 35 USC § 101 and 112

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

The rejection of Claims 31-33 under 35 U.S.C. 101 and 112, second paragraph, is hereby withdrawn.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

The rejection of Claims 1-33 under 35 U.S.C. 103(a) over Usher et al. is maintained.

Application/Control Number: 09/509,681

Art Unit: 1615

The rejection of Claims 8, 14, and 27 under 35 U.S.C. 103(a) over Usher *et al.* and Mioduszewski *et al.* is maintained.

Double Patenting

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

The rejection of Claims 9, 11, 16, 17, and 19-23 under 35 U.S.C. 101 as claiming the same invention as that of Claims 17-24, and 26 in Application No. 10/300,032 is withdrawn in view of the abandonment of the '032 application.

The provisional rejection of Claims 1-8, 10, 12-15, and 18 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over Claims 18-23 and 25 in co-pending Application No. 10/300,032 is withdrawn in view of the abandonment of the '032 application.

The rejection of Claims 1-16 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over Claims 1-18 of U.S. Patent No. 6,291,440 is withdrawn in view of the terminal disclaimer filed 03 March 2004.

Response to Arguments

Applicant's arguments filed 03 March 2004 have been fully considered but they are not persuasive.

Regarding the applicant's arguments concerning the prior art rejections of record, it is the position of the examiner that the applicant's arguments require a narrow interpretation of both

Art Unit: 1615

the claims and the prior art. It is the position of the examiner that one of ordinary skill in the art, giving both the prior art and the claims in their present form their broadest reasonable interpretation, would find the claimed invention obvious in view of the prior art. See MPEP § 2111 and 2123.

The applicant has mentioned a signed statement by a Professor Klaus Bock in order to set forth a more persuasive argument. However, no such record of a statement currently exists in the case. As the statement is absent from the case, the examiner will reiterate the position previously set forth that the methods of the prior art sufficiently read on the instantly claimed invention, and that one of ordinary skill in the art, guided by the disclosure of the prior art, would be able to arrive at the present invention with a reasonable expectation of success.
